Where any random kid can
solve real world problems

MISSION

RandomKid is a unique 501(c)(3) nonprofit organization that educates, mobilizes, unifies and empowers youth of all backgrounds and abilities to solve real problems.

VALUES

RandomKid believes in “The Power of ANYone”. We believe that youth have the power to solve real problems when their passion and idealism are matched with direct impact projects that they choose.

RandomKid believes that remarkable transformations happen not only within the world, but also within the youth who are given opportunities to engage in meaningful projects that make a tangible, measurable difference.

VISION

RandomKid is committed to:

- Mobilizing and safely networking the world’s youth to solve real problems.
- Building an online information and relationship hub that allows youth to safely engage and partner with agencies and organizations that are at work addressing global problems.
- Creating learning opportunities in the process that give youth powerful real world skills for life.

Kids Have the Power To Solve Real Problems

Our story begins in 2005 with a 10 year-old girl from Iowa who pulled out her No. 2 pencil and notebook paper and wrote up her plan. She wanted to get kids across the USA to trick-or-treat for loose change to donate to relief charities in the wake of Hurricane Katrina-- the most devastating natural disaster ever to hit the USA.

RandomKid CEO Talia Leman

Kids ended up collectively raising over

\$10 MILLION DOLLARS
one coin at a time

ABC News reported “Only five U.S. corporations gave more than what was raised by the school kids.” That little plan evolved into something far greater, and

RandomKid was born.

RandomKid is a place that harnesses that kid power for any challenge we face in the world.

RandomKid is a place where kids from around the world come together to solve real problems.

How it works

Youth, along with parents, educators and youth leaders, come to RandomKid with a desire to give something needed and tangible to the world. Sometimes they have a specific idea in mind, other times they select from a list of featured ideas.

RandomKid offers youth inspiring projects that empower them, support services, 501(c)(3) umbrella coverage, and opportunities to safely network with youth around the globe. By pooling resources together, kids can realize their goals for others.

“I’ve Got the Power!”

“We would never have been able to fund a water pump in South Africa on our own,” said CA educator Julie Calleja. “By connecting us with other schools with the same goal, RandomKid helped our class realize the dream in just a few months!”

And What’s More . . .

RandomKid offers youth safe, direct interaction with people on the ground working on their behalf

and meaningful recognition for their contributions. Among other things, RandomKid youth named a school they funded in Asia, celebrated lifesaving water pumps they provided on four continents, funded a Habitat home in the U.S. gulf, provided science technology to a Title 1 school, and conferenced with global recipients.
